

## Full colour Printed Banners

Using our in house VersaCamm printer with superb Ink technology we are able to produce high quality, digitally printed banners for indoor and outdoor use. At 1440dpi we can print pixel perfect photographs, text based images and logos. A fantastic way to promote your business, a school fete, charity event etc.

### Printer Inks

We use Eco-Sol Max advanced ink technology to produce vibrant banners delivering high density three year durability with added scratch resistance.

### Material

We use a premium grade 500gsm PVC Banner fabric. It has bright white, smooth satin surface giving a very high quality finish. It is perfect for outdoor use and is fire retardant to suit indoor use.

Size	Banner Vinyl		Eyeletting
	First Print	Extra Prints	
28" x 23" approx(760mm X 594mm)	£18	£15	4 eyelets - £2
1m x 28" approx(1000mm X 760mm)	£25	£20	4 eyelets - £2 6 eyelets - £5

All prices are + Carriage and VAT at applicable rates

**Turnaround:** Usual Turnaround 5 - 7 working days from receipt of print ready PDF artwork. Please contact us if you require a prompt turnaround

## Artwork

**We specialise in printing orders from artwork supplied.** If artwork can not be supplied we do offer a design service based on an hourly rate. Please contact us for a quotation.

**Please note:** All banners have a 25mm White border around the edges due to printing constraints.

Please send artwork in the correct size and proportion preferably in PDF format via email, cd or memory stick in person or via post. We do accept files in jpg or tif format. The disadvantage with this method has proven artwork quality could be impaired as the artwork would be in a bitmap rather than vector format. However if you send them to us at a minimum of 300dpi, the results should be acceptable.

We accept other file formats. If you are unable to save your work as PDF please contact us to discuss the options.

**Please note:** We make a nominal charge of **£20.00 + VAT** to work files which are not supplied as PDF, Tiff or Jpg.
